

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office DEC 16 1998
 Returned to applicant for correction JAN 13 1998
 Corrected application filed _____
 Map filed FEB 11 1999

The applicant **Randall and Lorilyn Chitwood & Bennett J. and Marilyn J. Vasey**, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

1. The source of the proposed appropriation is **an underground source**
2. The amount of water applied for is **0.156 cfs not to exceed 4.04 acft/year** second-feet
 - (a) If stored in reservoir give number of acre-feet
3. The water to be used for **quasi-municipal purposes (2 houses)**
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated
 - (b) Stockwater, state number and kinds of animals to be watered
 - (c) Other use (describe fully under No. 12. "Remarks")
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point **within the NW¼ NW¼ of Section 5, T11N, R20E, M.D.M. or at a point from which the NW corner of said Section 5 bears N 38°47'01" W, 1141.96 feet**
6. Place of Use **39.26 acres within the NW¼ NW¼ of Section 5, T11N, R20E, MDM (APN NOS 31-040-16 & 31-040-17), Douglas County, Nevada**
7. Use will begin about **1 January** and end about **31 December**, of each year.
8. Description of proposed works **rotary drilled well with 8 inch casing to 200 feet. Presently equipped with a 3 HP submersible pump**
9. Estimated cost of works **approximately \$20,000**
10. Estimated time required to construct works **well is completed with 8 inch casing to 200 feet, a 50 foot cement surface seal, equipped with a 3 H.P. submersible pump**
11. Estimated time required to complete the application of water to beneficial use **2 years**
12. Remarks: **Well will be used to serve 2 houses, one of which is completed. The houses are on large parcels (19ac+) therefore we are requesting 2.02 acft/year (1800 gal/day) for each house. The well is approximately 2200 feet from the west fork of the Carson River as shown on the supporting map**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit is granted for quasi-municipal use at two parcels, Assessor's Parcel Numbers (APN's) 31-040-16 and 31-040-17. This permit is issued in lieu of each parcel drilling separate wells for domestic use.

Any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.156 cubic feet per second, **but not to exceed 4.04 acre-feet annually.**

Work must be prosecuted with reasonable diligence and be completed on or before:

December 6, 2000

Proof of completion of work shall be filed before:

January 6, 2001

Water must be placed to beneficial use on or before:

December 6, 2001

Proof of the application of water to beneficial use shall be filed on or before:

January 6, 2002

Map in support of proof of beneficial use shall be filed on or before:
